

# Racism, Sexism, and the Media: Multicultural Issues Into the New Communications Age

The Fourth Edition of *Racism, Sexism, and the Media* examines how different race, ethnic, and gender groups fit into the fabric of America; how the media influence and shape everyone's perception of how they fit; and how the media and advertisers are continuously adapting their communications to effectively reach these groups. The authors explore how the rise of class/group-focused communication, resulting from the convergence of new media technologies and continued demographic segmentation of audiences, has led media outlets and advertisers to see women and people of color as influential key audiences and target markets, as well as a source of stereotypes, which may lead to media insensitivity and may help perpetuate social inequity. The Fourth Edition includes updated content on topics covered in the previous editions, and new material on: women of color, including an integrated assessment of their media experiences; new material on Muslim, Arab, and Asian groups; new technologies; and social media use and their impact.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
