

Hispanic Periodicals in the United States, Origins to 1960: A Brief History and Comprehensive Bibliography (Recovering the U.S. Hispanic Literary Heritage Series)

By all accounts, the most important document for studying the history, literature, and culture of Hispanics in the United States has been Spanish-language newspapers. In the last three decades, scholars have mined their pages when they could be found for information and perspectives long inaccessible because so much of the documentary tradition of U. S. Hispanics has been lost. Now, a noted cultural historian and a respected indexer-bibliographer have teamed up to provide the first comprehensive and authoritative source on the production, worldview, and distribution of these periodicals. Through the Recovering the U. S. Hispanic Literary Heritage project, these two scholars and a score of research assistants have pieced together all sources and produced a history inclusive of all the Hispanic ethnicities and all the diverse periodical forms, from newspapers to magazines and newsletters. The history is divided into the principal manifestations of Hispanic culture in the United States: nativist, immigrant, and exile. This useful compendium includes richly annotated entries, notes, and three indexes: by subject, by date, and by geography. The bibliography includes some 1,700 entries in standard bibliographic annotation.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
