

## A First Latin Reader (Classic Reprint)

Excerpt from A First Latin Reader With the Primer previously published, this Reader provides for a course of study leading up to Caesar or some other author of like difficulty. Students who are to give five years or more to preparatory Latin would normally devote a year each to the Primer and the Reader; but the maturer pupils in the four-year course will cover easily in their first year the work outlined in both books. It is hoped too, that, aside from use in this regular sequence, the Reader will be found to meet the needs of many teachers who are looking for a carefully graded text for supplementary reading or for translation at sight. The plan for beginning Latin embodied in Primer and Reader differs from others most fundamentally, perhaps, in that it concentrates so definitely upon the problem of developing the student's power to read Latin; and it is quite in harmony with that general design that this second book is called a Reader, and that in it the Latin-English exercises are massed at one point, with notes at the foot of the page. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
