

German Soldier Newspapers of the First World War (Studies in the Social and Cultural History of Modern Warfare)

The literature on trench journalism is well-established for Britain and France during the First World War, but this book is the first systematic study in English of German soldier newspapers as a representation of daily life and beliefs on the front. Printed by and for soldiers at or near the front line these newspapers were read by millions of ordinary soldiers. They reveal an elaborately defined understanding of comradeship and duty. The war of aggression, the prolonged occupation on both fronts and the hostility of the local populations were justified through a powerful image of manly comradeship. The belief among many Germans was that they were good gentlemen, fighting a just war and bringing civilization to backward populations. This comparative study includes French, British, Australian and Canadian newspapers and sheds new light on the views of combatants on both sides of the line.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
