

Peeling Back the Heart: Exposing the Soul

This loosely bound but intentional gathering of words weaves a heart-based path through a passionate spiritual landscape. Believing that life unfolds along a full emotional spectrum, the author stretches our conventional thinking about the transformative power of being present in our lives. By extending our non-judging, compassionate attention to our emotions as they arise, we both dilute their power over us, and expand our ability to withstand their impact. Processing an ever-shifting cycle of love and loss, she traces a mindful route, returning to center again and again, seeking out equilibrium, and finding the alchemy of despair into hope.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
