

French For Dummies (For Dummies (Computer/Tech))

If you buy into the Pepe Le Pew stereotype of the French arrogant, stuffy, overly amorous, and rather odiferous (Pepe Le Pew was a skunk. Talk about stereotypical!) then think again. Not only are the French people some of the most relaxed, pleasant people you'll ever meet, but their society is one of the oldest, most culturally rich societies in the world. So it's no surprise that French is known as perhaps the most beautiful of all languages. Listen to someone speak French sure, you don't have a clue what she's saying, but aren't you enraptured by the sound of it?

Unfortunately, just because a language is beautiful doesn't mean that it's easy to learn. Although French has many things in common with English, French has had many, many centuries to evolve into the language it is today, which means it's had all that time to become more complex. That's where French For Dummies can help. Written in partnership with the language experts at Berlitz, this book can give you what you need for basic communication in French. French For Dummies covers the following topics and more:

- Basic pronunciation and gestures
- The nuts and bolts of French grammar
- Meeting and greeting in French

Situations in which you can use French: Making small talk, dining out, shopping, and talking on the phone

Traveling to France: Dealing with French currency, staying at a hotel, and getting around town

Top Ten lists on ways to pick up French quickly, things you should never say in French, favorite French expressions, and important French holidays to remember.

Appendixes with verb conjugation tables, as well as a French mini-dictionary

French For Dummies also comes with a CD that has audio transcriptions of all the exercises in the book, so that you can actually hear the French pronunciations.

So whether you're taking a business trip and need to pick up a little French quickly;

you're cramming for your high school French final; or you've always wanted to learn a new language but don't have the time to drag yourself to a class once a week, French For Dummies can get you well on your way to becoming fluent in no time.

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
