

Elementary Spanish Grammar With Practical Exercises for Reading, Conversation, and Composition (Classic Reprint)

Excerpt from Elementary Spanish Grammar With Practical Exercises for Reading, Conversation, and Composition This book is, as the title indicates, an elementary grammar. The attempt has been made to present in a clear and logical manner the important principles only. The book furnishes enough material in Spanish grammar, texts, conversation, and composition for one year of college and two years of high school work, granting that about one half of the time be given to the reading and translation of literary texts. In high school work the authors recommend that the work of the first year end with Lesson XXX. The exercises, which are of a practical character, have been prepared with the greatest care and in accordance with modern pedagogical principles. They are in the form of connected, practical, and interesting dialogues, descriptions and narratives concerning school, city and country life, and ordinary business transactions. In the last four lessons they are exclusively of a commercial character, thus furnishing a good beginning in Spanish commercial practice and correspondence. The exercises are abundant and the teacher can use them in various ways. He may make frequent reviews; change the subject pronouns in the texts; add conversational exercises both for oral and written work, based on the texts; or reproduce from day to day the subject matter of the previous lesson. With young students it may be well to leave the composition exercises for review work. The oral exercises may at first be taken as composition for written work. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
