

Excerpts from Life Choices (Life Choices Navigating Difficult Paths Book 1)

The Life Choices books are a series in which real people share their stories of over-coming obstacles, putting lives back together and following their passions to create successful, significant lives. Deborah Clark celebrates the launch of the book Life Choices, Navigating Difficult Paths. As a contributing author she invites you to experience the story of her personal growth, which ultimately led to the publication of her story. We all make decisions every day. The decisions we make determine the person we become. Who are you? What are you doing? Hopefully, you are not just doing the same old thing over and over. Hopefully you are taking advantage of all the opportunities around you. Are you looking?

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
