

The Bodigulpa (Shock Shop)

Spooky or funny, surprising or frightening, SHOCK SHOP is a collection of eight brand new novels by some of the greatest names in childrens writing. THE BODIGULPA Daniels not happy when Grandpa Green moves in with them after the mysterious death of Granny Green. Hes smelly, has dirty fingernails, long, lank hair and hes mean to everyone. The only things he seems to like are his strange, menacing plants. When lovely Auntie Lorna comes to babysit one day, things take a turn for the worse. She brings her dog Stanley and Grandpa HATES dogs. After Stanley makes the mistake of peeing against the greenhouse door - the very greenhouse in which he keeps his horrible plants - Stanley disappears. All that remains is his broken, slime-covered leather collar and Daniel finds it behind Grandpa most precious plant: the Bodigulpa. When Auntie Lorna disappears as well leaving behind only her high-heeled shoes (discovered beside the Bodigulpa), Daniel begins to suspect that theres more to his grandfather and his fast-growing plant than meets the eye...A great story, brilliantly told and bursting with horror, laughter and black, black humour!

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
