

The Bowl and the Stone: A Haunting Tale from the Virgin Islands

Pirates. Explorers. And spooky ghost hunters. Its 1962. Sam and her best friend, Nick, have the whole island of St. John, in the U. S. Virgin Islands, as their playground. Theyve got 240 year-old sugar plantation ruins to explore, beaches to swim, and trails to hike. But when a man disappears like a vapor right in front of them, they must confront a scary new reality. Theyre being haunted. By whom? And why? Hes even creeping into Nicks dreams. They need help, but the one who might be able to give it is Trumps, a reclusive hunchback who doesnt like people, especially kids. Are Sam and Nick brave enough to face him? And if they do, will he listen to them? Their carefree summer games turn into eerie hauntings, and Sam and Nick learn more about themselves and life than they could ever have imagined.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
