

Spider, Spin Me A Web: A Handbook For Fiction Writers

The craft of writing is a lot like spinning a web: You take threads and weave them skillfully together, and only you know where this intricate network of twists and turns begin and how it will end. Now, with Lawrence Block's expert advice, you can learn this art of entrapping your reader in a maze of fascinating fiction. *Spider, Spin Me a Web* is the perfect companion volume to Block's previous book on writing, *Telling Lies for Fun and Profit*, which Sue Grafton noted should be a permanent part of every writer's library. As helpful and supportive as always, Block shares what he's learned over the course of writing over one hundred published books: techniques to help you to write a solid piece of fiction; strategies for getting a reader (or editor) to read and buy your book; ideas for increasing your creativity and developing an environment that will nourish you and your craft. *Spider, Spin Me a Web* is a complete guide to achieving your full potential as a writer.

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
