

Stay Loose

This is a fictional memoir of a character named California Gibb. Back in the middle of the 20th Century California Gibb arrived on campus. It was not long, perhaps three years more and he is a third- quarter senior when he puts a challenging principle of risk to the test. Would it work? That was the big question. This is an account of a known event that actually took place in Cougartown. Only now is it talked about in order to get the real good out of the adventures leading up to and following it. The events are spot on. Some names have been made to be different in order to keep it an original fiction. Some characters have fictitious names. Other names, such as certain public figures have been used in order to get from the account the real power from the lessons learned in the outrageous caper. Merklely observes: I know all about what happened and thats why I wanted to write about it. Its an exciting time during finals week at the home of the rise and shout people. When the pressure bears down on a dedicated individual to do his best, like in this case, there looms a golden moment to ponder the situation and lead out. This is a book for re-thinking those rare moments of leadership where you stay totally loose. This is a book with a thoughtful spin to it. You think about it as you go along reading it. You ponder the ideas and find yourself beginning to stay loose. The book is for use as a business school text plus it can also be quite casual reading by studious Individuals seeking leadership roles, for example, your motivated BYU or Harvard students.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There

were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
