Step Forward is the best-selling standards-based, four-skills course that improves student outcomes by integrating language instruction into real-life contexts. Designed to build workplace skills, the vocabulary in Step Forward is based on the vocabulary of the Oxford Picture Dictionary - providing easy supplementing and a rich, integrated instructional experience. Strong vocabulary and grammar strands provide learners with the tools they need to achieve civics, workplace, life-skills and academic competencies. All Step Forward program components support multilevel instruction. Varied instructional strategies and clear identification of objectives contribute to learner persistence and a variety of assessment tools allow teachers and learners to monitor progress.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
