

Structured testing in practice

Diploma Thesis from the year 2007 in the subject Information Management, grade: 2, Fudan University Shanghai, 31 entries in the bibliography, language: English, abstract: The IT-market has been growing dramatically in the last 15 years. Software tries to solve complex problems of the real world. In addition, customers expectations concerning the quality of the software are rising steadily. Therefore, testing the software before it is delivered to a customer is a necessity. While testing software completely is impossible, the test department must use techniques in order to test critical parts in the software first. Furthermore, the test department has to provide best possible information about the quality of the software achieved through passing several tests. This requirement can be met only if testing is a structured and monitored process. This thesis presents the implementation of an approach which understands structured software testing as an integrated part of the software development life-cycle. The approach is based on several established models from software development, quality assurance, and software testing. These models are discussed together with different commercial, in-house, and Open Source tools used for the implementation of the approach. A framework is described for automated test execution, test results processing, archiving of test data, and web based test data management. An example is given where this framework has been introduced to a software company. Based on a specific quality approach the measurable quality improvement of the test process due to the introduction of the framework is presented.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There

were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
