

Studies on the Collective and Feminine in Indo-European from a Diachronic and Typological Perspective (Brills Studies in Indo-European Languages & Linguistics)

This volume contains thirteen contributions on the origin of the feminine gender and its relation to the collective in the Indo-European parent language. The Indo-European daughter languages have got mostly a three-gender system, however the early attested Anatolian languages owned only two genders. In this respect, it is debatable whether the feminine gender is primary or arose secondarily from another morphological category. Due to special morphological and morphosyntactic phenomena it is also questionable whether the neuter plural of the individual languages continues an inflectional category or it was rather grammaticalized from an original word formation category collective. The authors suggest different approaches on the question of the relationship between feminine and collective.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
