Esperanto is the auxiliary language created by a Polish oculist, Dr. L. L. Zamenhof (1859-1917), and first published in 1887 ... His contention was, that we must first find some solution to the language problem. Not until we have settled this comparatively minor matter can we begin to understand each other across the frontiers and then to discuss the grave social and economic problems which face us. Esperanto is intended as a simple second language for all mankind...(from the Introductory Lesson)

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
