

# Teachers, Discourses, and Authority in the Postmodern Composition Classroom

This book is a sophisticated analysis of the teachers role and authority in postmodern academic settings. Xin Liu Gale argues that the teachers authority is inevitable and indispensable in effective teaching, and that, furthermore, it is necessary for symbolic imposition. The author insists that teachers and scholars should explore how the teachers authority functions in the pedagogic context and how it can help students develop critical literacy. Influenced by the works of Mikhail Bakhtin, Pierre Bourdieu, Jean-Claude Passeron, Paulo Freire, Richard Rorty, and various poststructuralist theorists, Gale investigates the complex relationships among the teachers and the institutions authority, the teachers discourse(s) and social and pedagogic roles, and students discourse(s) and diverse backgrounds. She then proposes a two-level interactional model of teaching that is based on a new discourse relationship characterized by the edifying role of the teacher.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
