

# The Act of Choosing: A Context-Matching Theory, and Its Practical Implications

Choosing: Selecting a path when reason cannot show which way to go. Choosing pervades our lives, nourished by evolutionary roots that stretch back 4,000,000 years. It activates freedom and indexes social openness, and only the person who chooses can mature. One who chooses not to choose ignobly shuns responsibility and cannot honorably say, I. Choosing, central to initiative, sparks the economy that feeds earth's swollen population. Choosing works on policy issues that dispassionate reason cannot handle, and nothing less than good choosing will see us through these interesting times. However, the melding of reason with choosing gave our species its edge over all the other hominids. Context matching theory helps us (voters, CEOs, legislators) choose well, by telling us the nature of the act of choosing. CM theory directly opposes DA's rational models, painting choosing as a swift, natural happening, basically intuitive and non-mystical. It exposes the prerequisites to good choosing. Theoretical = impractical? No way. There is nothing so practical as a good theory (Kurt Lewin), and Dr. Rhyne spends two thirds of this book exploring the many very practical, often revolutionary implications of his good theory. Do you want to choose better? Learn how you choose.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
