

The Big Picture: Readings for Developing Writers

An exciting approach to learning and refining reading and writing skills prevails throughout this provocative anthology. It interests readers in several works on a certain theme, engages them in reading instruction while reading, and prompts them to complete a writing assignment based upon what they have read. Forty thought-provoking readings on a number of subjects are organized around five general themes: people, places, events, phenomena, and issues. The essays, short stories, poems, and excerpts along with the six activities that follow each one will help readers bring all the pieces together to create and understand the big picture. For anyone who wants to find out that reading can be fun, and that anyone can learn to be a good writer.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
