

## The Craft of Fiction

No more substantial or more charming volume of criticism has been published in our time. To say that this is the best book on the subject is probably true but it is more to the point to say that it is the only one. -Times Literary Supplement

The reigning masterpiece on the creation and criticism of fiction, *The Craft of Fiction* is a seminal important work by essayist, and literary critic Percy Lubbock. Lubbock's outlook in this publication is an obvious extension to that of Henry James and he works to illustrate the craft by referencing many important and classic novels including Leo Tolstoy's *Anna Karenina*, Gustave Flaubert's *Madame Bovary* and Henry James' *The Ambassadors*. *The Craft of Fiction* is highly recommended for those who enjoy literary criticism works and also for those who are interested in the key writings of Percy Lubbock. *The Craft of Fiction* has helped transform generations of aspiring writers into masterful writers and will continue to do so for many years to come.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
