

The Healing Land: A Kalahari Journey

An exploration - part travel writing, part personal quest - of Africa's oldest and most famous population. The Bushmen have long been mythologized and are firmly entrenched in the Western mind. But what is it about hunter-gatherers that is so attractive to us, and why do we need these myths? Fascinated by this disappearing population, Rupert Isaacson has been venturing into the Kalahari since he was a child and his book is a search for this truth about the Bushmen through Namibia, Botswana and South Africa. Part travel writing, part history of the Bushmen, part personal quest, the work records what he found there, the landscapes he travelled through, the wildlife he hunted and ate, the characters, corruption and confusion of a people who have wrenched themselves out of the Stone Age (it wasn't until 1948 that it became illegal to kill Bushmen) into a cash economy over the last decade of the 20th century.

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
