Not illustrated. 1895 edition. Excerpt: ...once situated in the tibia and four times in the astragalus. Erasmus, however, differed from the general opinion in finding that of 11 cases only 2 were primarily synovial. As to the individual bones affected, Czerny found that in 52 cases the astragalus was affected 15 times, the os calcis 13 times, the cuboid 16 times, and the scaphoid and cuneiform 8 times. Often the lower end of the tibia is affected while there is a focus in the head of the astragalus, but the complex arrangement of the synovial membrane at the ankle makes extension of the disease very easy to other bones and other parts of the articulation from that originally affected, and the same condition renders complete removal of the diseased tissues very difficult. The symptoms of disease of the ankle-joint, in addition to the swelling, have been very slightly alluded to, and are of much importance in connection with the diagnosis. A persistent swelling about either malleolus is exceedingly suspicious; any thickening over the front of the ankle-joint points to an inflammation of the synovial membrane; while swelling and tenderness over the os calcis indicate probable dis Volkmanu. This is apt to be deceptive, because at times the medio-tarsal joint becomes more than normally flexible, and executes a certain amount of the movement ordinarily

accomplished at the ankle-joint itself. This tends,...

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
