

The Irish Contribution to Americas Independence (Classic Reprint)

Excerpt from The Irish Contribution to Americas Independence It becomes nations as well as individuals not to think of themselves more highly than they ought, but to think soberly. Self-exaggeration detracts from their character without adding to their power; but a greater and more dangerous fault is an habitual depreciation of their real resources and a consequent want of self-reliance. - Godkin. One of the faults chargeable against the Irish people, and particularly Americans of Irish descent, is that they are ignorant of the achievements of their race in the past. This is probably due to the fact that the people of Ireland have for generations been taught to believe that everything respectable has come from England and that the English are a superior race. Indeed, an attempt has been made to impress the same theory on the minds of Americans, and perhaps the most pernicious falsehood promulgated by pro-English writers, who exert a subtle influence in spreading the gospel of Anglo-Saxon superiority, is that America owes her liberty, her benevolent government, and even her prosperity to her English forefathers and Anglo-Saxon blood. The truth is that the impartial history of Ireland is the story of Englands shame, while the history of America offers abundant evidence of the innate greatness of men of the Irish race. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
