

The Language of Journalism: A Multi-genre Perspective

The Language of Journalism aims to provide an accessible, wide-ranging introductory textbook for a range of students. The book explores the significance of a range of linguistic practices occurring in journalism, demonstrating and facilitating the use of analysis in aiding professional journalistic and media practice. The book introduces the differences in language conventions that develop across media platforms. It covers all the key journalistic mediums available today, including sport, online and citizen journalism alongside the more standard chapters on magazine, newspaper and broadcast journalism. Clearly written and structured, this will be a key text for journalism students.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
