

The Making of Arab News

Since September 11, Arab and American journalists have been trading barbs, accusing each other of bias and a lack of objectivity. But is news coverage in Arab countries all that different from American coverage? The Making of Arab News draws comparisons, including examples of Arabic news language and their English translations, to show how Arab news values have been Americanized and how these values are reflected in the language used in the Arab news. Noha Mellor further discusses claims that the current development in the Arab news media could be the first step toward democratization.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
