

Creative English Business Roleplaying Activities

Welcome to Creative English Business Roleplaying Activities. Nowadays Many EFL Students are in search of more conversational ways to pick up the English language. Mainly because of the importance of bringing into practice what they learn. The days of passively sitting in a classroom are long gone. Instead the students want to be involved in the classroom, interact with their classmates, as well as practice real life business situations. One of the best ways to do that is to have the students role-play in the classroom and practice their English in an interactive way . Role-playing has many beneficial characteristics for in the classroom, and especially in the EFL/ESL classroom. Although they are more often used in Special Purposes courses, they can be used in many different settings, and at all levels. For that reason we have created this series of books Creative English Business Role-playing Activities as a handy toolbox for Schools, as well as for Teachers, to make their classes stand out and become (even) more conversational and engaging for the students. We have divided this book in 4 chapters; each chapter focuses on a specific topic: -1-Human Resources -2-The Office -3-Dining Out -4-Traveling Under each topic you will find 5 sub-topics. Under each sub-topic you will find: -The topic content page -One describe the picture activity -One three phase role-playing activity for level-2 students (intermediate and up). With a space for notes -One page with discussion questions for level-2 students (intermediate and up). -A page with focus vocabulary. -A page with sentence block starters -4 Extra activity ideas -A short conversation template -A page for notes.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
