

The News and Public Opinion: Media Effects on Civic Life

The daily news plays a major role in the continuously changing mix of thoughts, feelings and behavior that defines public opinion. The News & Public Opinion details these effects of the news media on the sequence of outcomes that collectively shape public opinion, beginning with initial attention to the various news media and their contents and extending to the effects of this exposure on the acquisition of information, formation of attitudes and opinions and to the consequences of all these elements for participation in public life. Sometimes called the hierarchy of media effects, this sequence of outcomes describes the communication process involved in the formation of public opinion. Although the media landscape is undergoing rapid change, key elements remain the same, and The News & Public Opinion emphasizes these basic principles of communication established over decades of empirical social science investigations into the impact of mass communication on public opinion. The primary audience for this book is students, both advanced undergraduates and graduate students, as well as members of the general public who want to understand the role of the news media in our civic life.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
