

## The Palmer Method of Business Writing - A Series of Self-teaching Lessons in Rapid, Plain, Unshaded, Coarse-pen, Muscular Movement Writing for Use in ... and Legible Handwriting is the Object Sought

This vintage text contains a comprehensive guide to the Palmer method of business writing, being a series of self-teaching lessons in rapid, plain, unshaded, coarse-pen writing. The Palmer Method was developed by Austin Palmer in the late nineteenth and early twentieth centuries. It was primarily designed to be a simplified version of the Spencerian Method, the major standardized system of handwriting since the mid-nineteenth century, and quickly became the most popular handwriting system in America. This text will appeal to those with a keen interest in the history and development of penmanship, and it is a book not to be missed by the discerning collector. Many antiquarian books such as this are increasingly rare and expensive, and it is with this in mind that we are republishing this vintage book now in an affordable, modern edition complete with a new prefatory biography of the author.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
