

The Pen and the Sword: Press, War, and Terror in the 21st Century

An eye-opening case study of the news at war, introducing a critical perspective on our mass media. *The Pen and the Sword* is the only comprehensive examination of how the media have covered the 21st Century's #1 news story: terrorism and the wars in Afghanistan and Iraq. This is the full story from 9/11 to the Obama doctrine, and including: The war in Afghanistan. There were two sides to this story, but the press told only one, and the untold story would return to haunt us. The campaign for war in Iraq. What did the press know and when did they know it about the web of lies that led us into war? Iraq, from invasion to Mission Accomplished. When the story of war is told as patriotic hymn, Playstation game, or melodrama of macho heroes and bad guys dressed in black, important things are left out. Aftermath, from Mission Accomplished to the present. Something has changed since the Vietnam War, when the press finally found its critical voice. However, the 21st Century media continue to cling to an untenable, pro-war story, even after the public has abandoned it. *The Pen and the Sword* uses this tragic and eye-opening case study of the news at war to ask, *Why?* and to offer a critical perspective on our mass media, including the latest information on the underpinnings of the news business: corporate ownership, the power of elites to define the news and adds three important new features of the media landscape: The media profit crisis of the late 00s and how it is affecting the news. The creation and mainstreaming of a new right-wing media surround-sound system. The increasing importance of entertainment media and soft news in shaping our views.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There

were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
