

The Road to Le Tholonet: A French Garden Journey

This is not a book about French Gardens. It is the story of a man travelling round France visiting a few selected French gardens on the way. Owners, intrigues, affairs, marriages, feuds, thwarted ambitions and desires, the largely unnamed ordinary gardeners, wars, plots and natural disasters run through every garden older than a generation or two and fill every corner of the grander historical ones. Families marry. Gardeners are poached. Political allegiances forged and shattered. The human trail crosses from garden to garden. They sit in their surrounding landscape, not as isolated islands but attached umbilically to it, sharing the geology, the weather, food, climate, local folklore, accent and cultural identity. Wines must be drunk and food tasted. Recipes found and compared. The perfect tarte-tartin pursued. None of these things can be ignored or separated from the shape and size of parterre, fountain, herbaceous border or pottager. So this is a book filled with stories and information, some of it about French gardens and gardening, but most of it about what makes France unlike anywhere else. From historical gardens like Versailles, Vaux le Vicomte and Courances to the kitchen gardens of the Michelin chef Alain Passard. There are grand potagers like Villandry and La Prieure DOrsan and allotments and back gardens spotted on the way. Monty celebrates the obvious French associations of food and wine and finds gardens dedicated to vegetables, herbs and fruit. It is a book that any visitor to France, whether gardeners or not, will want to read both as a guide and an inspiration. It is a portal to get under the French cultural skin and to understand the country, in all its huge variety and disparity, a little better.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
