

Dutch Self-Taught: With Phonetic Pronunciation (Classic Reprint)

Dutch language being a collateral of the Modern German, there is considerable similarity between them, both having originated in the one form of construction, viz., old High German, and both having the same root words. This close relationship will naturally be found of great assistance to the student who, having a knowledge of either language, desires to learn the other. The present manual is designed for students, and for those whose business or pleasure renders a practical acquaintance with the language a necessity, or at any rate a desideratum. Merchants, professional and commercial men visiting Holland or its dependencies, and travellers, officials, and settlers in South Africa will find it of great service and value. Dutch as spoken in Holland has been adhered to, for I found, whilst serving with the South African Field Force, that this is generally understood by the Boers and the Gape Dutch; moreover, it is this parent tongue that is being taught in the Government schools both in the Transvaal and the Orange River Colony. The very full outline of Grammar that forms a special and important feature of the work, will prove most helpful to the student and all who desire to master the language. The phonetic or third column will be found to give, at a glance, the pronunciation of the Dutch words in the second column, as they are spoken by the educated classes in Holland. This is accomplished by means of Maelbokough's System of Phonetics, as employed throughout their Series of Self-Taught Manuals. The system is so simple that those previously unacquainted with either Dutch or German can, with its aid, make themselves readily understood. It is hoped that by facilitating the study and acquisition of the language, this Manual may help to strengthen the commercial and social ties between Great Britain and Holland, and also between the British and their Dutch fellow-countrymen.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
