

The Secret Path: A Technique of Spiritual Self-Discovery for the Modern World

Modern psychologists can be broadly divided into those who affirm the presence of a controlling integrating self within the body-nature, and those who affirm only the existence of the mechanical form. Is there a self? Is there a subjective reality? Is there such a thing as spiritual consciousness? This is the problem before investigators to-day in the field of human awareness. Can the hidden self be proved and people be induced to tread the secret path to the holy place, where the elf can be discovered? The timeliness of this book is real. It expresses, with a beautiful clarity, truths which have been too often hidden under ponderous phrase, difficult Oriental symbolism, and mystical vagueness. It will be welcomed by those who are alive to the moments urgency and to humanity's new readiness for spiritual revelation. --- excerpt from books Foreword by Alice A Bailey

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
