

## The Situation and the Story: The Art of Personal Narrative

A guide to the art of personal writing, by the author of *Fierce Attachments* and *The End of the Novel* of *LoveAll* narrative writing must pull from the raw material of life a tale that will shape experience, transform event, deliver a bit of wisdom. In a story or a novel the I who tells this tale can be, and often is, an unreliable narrator but in nonfiction the reader must always be persuaded that the narrator is speaking truth. How does one pull from one's own boring, agitated self the truth-speaker who will tell the story a personal narrative needs to tell? That is the question *The Situation and the Story* asks--and answers. Taking us on a reading tour of some of the best memoirs and essays of the past hundred years, Gornick traces the changing idea of self that has dominated the century, and demonstrates the enduring truth-speaker to be found in the work of writers as diverse as Edmund Gosse, Joan Didion, Oscar Wilde, James Baldwin, or Marguerite Duras. This book, which grew out of fifteen years teaching in MFA programs, is itself a model of the lucid intelligence that has made Gornick one of our most admired writers of nonfiction. In it, she teaches us to write by teaching us how to read: how to recognize truth when we hear it in the writing of others and in our own.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
