

The Stress Accent in Latin Poetry (Classic Reprint)

Excerpt from *The Stress Accent in Latin Poetry* This monograph contains a condensed and careful summing up of the most authoritative evidence with regard to a stress accent in Latin. On the basis of the doctrine here set forth, Miss du Bois has formulated an ingenious and very plausible theory of the Saturnian Verse, and has sought to establish an explanation of the purely quantitative Latin poetry which shall reconcile the opposing views as to an apparent clash between word accent and verse accent. I regard her discussion as a valuable contribution to the literature of this highly controversial subject. Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
