

# Deliberative Nerdocracy: The Online Public Sphere of Slashdot and Digg

Seminar paper from the year 2010 in the subject Communications - Journalism, Journalism Professions, grade: 1,7, University of Hamburg (IJK), course: Journalism and European Public Spheres, language: English, abstract: To what extent can the Internet in particular, as one form of network that delivers space for communication, fulfill the requirements of a public sphere? Measured against idealized concepts, online public spheres analyzed in studies that are presented in the essay, especially those of Slashdot.org and Digg.com, seem to be promising versions of deliberation space.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
