

The Werewolfs Journal & Full Moon Planner for 2015: An Easy Way To Be Prepared For The Challenging Moon Changes & To Keep a Regular Journal

This is a journal for those who would love to know what it would be like to be a werewolf. Its a book that encourages the writer to get into tune with the moon cycles, as well as to contemplate life & become more connected with nature. The book is split into 13 moon cycles. Each one allows the writer to deepen their connection with the natural moon cycles & their inner thought & feelings. There are also 2015 moon calendars for USA, UK, Germany, Australia & New Zealand to allow the writer to be aware of the moon phase wherever they are in the world. It is mainly designed for the teenage audience (Although can be great for anyone) & is great for inspiring a deeper connection with self & nature.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
