

Through Their Eyes, Foreign Correspondents in the United States,

This book is truly distinctive--the only work of its kind to my knowledge and one of a very few efforts to look at foreign/international correspondents in the US who cover America like a foreign country. The book includes a major empirical study, but is mostly a narrative that captures the feeling tone of foreign correspondents and their work. --Everrette Dennis

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
