

Better Writing

Fully revised with additional content, this full colour new edition of Better Writing builds on the success of the original. It is designed to supplement main coursebooks at the low-intermediate to intermediate level and will benefit students at secondary or tertiary institutions as well as adults on vocational or professional training programmes. The author takes a step-by-step approach to the teaching of writing skills. Each unit begins with activities designed to increase awareness of what writing in English involves and includes practice in: * mechanical skills (spelling, capitalization and punctuation) * construction and linking (conjunctions and subordination) * grammar The new Language review section concludes each unit with additional practice in the main language items featured. Through controlled and guided practice, students are gradually led towards writing accurate, cohesive, appropriate and more interesting paragraphs involving a variety of topics and functions, such as: * explaining the functioning of a device * describing a process * describing an object * making comparisons * describing tables and graphs * explaining cause and effect * writing formal and informal letters * describing change over time * reporting speech and events

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
