

Undergraduate Writing Guide: Writing tools for the Adult Student (APA 6th Edition)

Why do we use APA style? One of the overarching goals for academic writing is to ensure that students are good communicators, and that includes writing well and communicating ideas to a reader in a clear, concise, organized, consistent manner. The writing and citation style adopted is that of the APA (American Psychological Association). However, the APA manual can be cumbersome for students to navigate. Therefore, this guidebook is prepared for adult students to use when writing papers for their classes.

Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
