

Coming to Terms with Experience through Writing, Scott Oury

Gaining full voice in your writing and knowing how to use it, like a singer, is absolutely essential. This book was born in writing classes where, with early encouragement, writers soon found a voice.

The book took form as I discovered how that was happening. I was determined to help bring these writers to full voice. First, they had to find a personally invested subject. So I asked them to keep a journal/notebook of their own, and to write down whatever came to mind with feeling, just that: memories of recent or past happenings, random thoughts and images of any sort, including imaginations and dreams. What came with feeling came with voice: raw, refined, soulful, sarcastic, ironic, insightful and true. The pleasure of voice led naturally to the pleasure of detailed description, which led to dramatic monologues, dialogues, sketches, narratives, and reflections. Exploring these descriptions for meaning led to the pleasure (sometimes pain) of discovery, and of developing meaning further with memoirs and personal essays. I structured the book using this sequence: voice to personal essay, which had developed naturally. And added a chapter on modern style. As they wrote, these writers found a natural modern style of their own that cleared a path for detailed description, narration, and for thinking things through. Some of the best of these writings profusely illustrate this book. Chapter 8 explores modern style, the cumulative sentence in particular, a style developed by outstanding writers of the past 100 years, among them, Hemingway, Faulkner, Steinbeck, Eudora Welty, and Rachel Carson. Though this is a book about writing, it doesn't just focus on grammar and style, but actually tells people how to go about writing, as one reviewer wrote. In all her years as a book publisher, she wishes that she had known about this book in order to recommend it to the zillions of

folks who wanted me to tell them how to write.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
