

The Essence of Wisdom and Life: A Poetic Journey

This is a remarkable compilation of inspirational poems, stories and photographic art that depict various moments of realization in life. Author, Dahveed supplies the reader with a variety of wonderful ideals to live by. These ideals serve as reminders about the benefits of making positive changes in our lives and the positive impacts that we can have on the lives of others. The story retreats to an eloquent depiction of the very beginning of the formation of the world and of the universe to remind us and to shed light on the many magical processes responsible for who we are, and why we are. Dahveed utilizes vivid imagery, meaningful themes and raw emotion to challenge people into the realization that they can grow, change and be who they want to be. This book is truly touching and it contains innumerable thought provoking and conversation provoking concepts. Dahveed allows people to witness the world with freedom from conventional forms of conceptual constraint. He encourages readers to appreciate the little things in life. Readers are also inspired to actively seek and choose their destiny. The author engages the reader to literally contribute to the text by evaluating and writing their own prompted reflections into his book. It takes the reader on a therapeutic journey toward empowerment and self-discovery. This is the kind of book that you not only want to read but you will feel the need to own and refer back to it regularly. - Stephanie L. M. Abel, M.A.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
