

Write from Life: Turning Your Experiences into Compelling Stories

Its easy for people to write about their feelings in a journal. Its more difficult, however, to convert personal experiences into stories worthy of publication - fiction, nonfiction or poetry. Meg Files teaches writers how to transform their raw experiences into finished pieces. Theyll learn how to identify story-worthy material, conquer fears associated with personal exposure, determine a story's focus, shape the material into a cohesive whole, then edit and revise as needed. Writers working in any form will find this book invaluable for supplying them with the inspiration and practical instruction they need to get their experiences and emotions into print.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
