

## Writing about Literature - Second Edition: A Guide for the Student Critic

Writing about Literature introduces students to critical reading and writing through a thorough and engaging discussion of the field, but also through exercises, interviews, exemplary student and scholarly essays, and visual material. It offers students an insiders guide to the language, issues, approaches, styles, assumptions, and traditions that inform the writing of successful critical essays, and aims to make student writers a part of the world of professional literary criticism. Much of the discussion is structured around ways to analyze and respond to a single work, Stephen Cranes story *The Bride Comes to Yellow Sky*. This second edition is updated throughout and includes a new chapter on Reading and Writing About Poetry; the chapter uses Robert Kroetschs poem *This Part of the Country* as the unit of analysis and includes an interview with the poet about his process.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
