It covers all stages of academic authorship from developing the initial idea for a book through to post-publication issues, showing how to avoid the common pitfalls and achieve academic and professional success through publication. Full of real life examples, including a sample book proposal, the book covers everything you need to know to build up an authorial career. This is an invaluable guide for academic authors - prospective or established - in all disciplines.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
